Job Title: CCTV & Alarm Engineer

Salary: Competitive Salary, 20 days annual leave + 8 days Public Holiday

Location: Adlington, Lancashire

Due to the continued expansion of our security business, we have a new opportunity for an experienced CCTV & Alarm Engineer to join our team. We are looking for someone who has been involved in the installation and commissioning of a range of CCTV and Alarm systems.

Role Purpose

The successful candidate will have a strong understanding of a range of CCTV and Alarm products and the underpinning theory as to how they operate. The CCTV & Alarm Engineer must be fully up to date in not only the physical installation of the systems but also have the ability to understand the client's requirements and be able to translate them into a plan. As part of this role the engineer must also be a capable structured cabling installer as they may be involved in installing the network infrastructure the system sits on or aid in the installation of structured cabling systems in other areas of the business as the need arises.

Duties Include

- Installation and commissioning of CCTV, Alarm and Security systems
- Maintenance and fault calls on CCTV, Alarm and Security systems.
- Installation and testing of structured cabling systems
- Interpreting and understanding proposal documents and drawings
- Accurate and timely completion of all work-related documentation
- Ensure the highest quality of workmanship at all times

Skills Required

- Demonstrable knowledge of CCTV, Alarm and Security installation
- Demonstrable knowledge of commissioning CCTV systems
- Good knowledge of basic electrical principles
- Basic knowledge of IP Networking and a good IT competence
- Working knowledge of current and prevalent CCTV standards.
- Flexible approach to working location and times.
- UK Driving Licence
- A team player who is keen to learn
- Good communication and time management skills
